SOURCE

Funkwerk Koepenick has encountered difficulties in procuring necessary materials. Type RS 782 tubes were formerly delivered to Funkwerk Koepenick by Funkwerk Erfurt. Of late the Erfurt deliveries have been so poor in quality that Funkwerk Koepenick may have to try to procure the tubes from West Germany. An attempt is to be made to substitute SKL 402 tubes from the Telsfunken firm in West Germany for the tubes manufactured by Erfurt. Funkwerk Koepenick is also having trouble procuring dummy antennas (Kunstantennen), which are chiefly used for very high frequency transmitters and for jamming transmitters. An attempt will be made to procure the antennas from the Kohde and Schwarz firm in Munich.
